

GU Shear Up Adapter

GU Shear Up Adapter is a Wireline Pulling Tool device used to convert a GS Pulling Tool (shear down) into a GR Pulling Tool (shear up). The GU Shear Up Adapter, with shear pins in place is screwed onto the top of the GS Pulling Tool. The shear pin on the “ GS “ is then removed. The complete assembly now a “ GR “ Pulling Tool, will operate with a “ shear up “ action instead of a “ shear down “. The GU Shear Up Adapter is available with standard fishing necks and to suit all sizes of GS Pulling Tool.

GU Shear Up Adapters			
Size	Actual. OD	F/N OD	Connection
(in.)	(in.)	(in.)	(in. TPI)
