

## Sample Bailer

**Sample Bailer** is used to collect samples of debris from the well bore creating obstructions. Sample Bailer consists of a top sub, bailer tube and a ball or flapper mule shoe.

The Sample Bailers are available in two basic designs with ball or flapper shoe. The shoe opens when Sample Bailer assembly is forced in debris and closes when the sample bailer is forced out.

Please specify Bailer Shoe sizes and configuration when ordering.
