

## Dimple-on Connector

**Dimple-on Connector** is a one-piece design providing a robust, cost effective means of attaching a BHA to the coiled tubing. The one-piece design incorporates two O-ring grooves providing added security in high-pressure applications. The Dimple-on Connector has superior mechanical strength comparable with tubing the dimple design enable torque-through capability. The Connector is reusable and furnished with standard O-rings making it easy to redress in the field.

### Features

- 1) High tension strength
- 2) Dual O-ring internal pressure seal
- 3) Easy makeup

Dimple-on Connector				
CT Size	Wall Thickness	O.D.	I.D.	Connection
1-1/4"	TBA	TBA	0.50"	1" AMMT
1-1/2"	TBA	TBA	0.688"	1-1/4" AMMT
1-3/4"	TBA	TBA	0.75"	1-1/4" AMMT
2"	TBA	TBA	1.00"	2-3/8" PAC
2-3/8"	TBA	TBA	1.00"	2-3/8" PAC

- 1) *Other sizes available on request.*
- 2) *AMMT, PAC and other thread connection for selective.*
- 3) *STD and H<sub>2</sub>S service environment for selective. Quote with STD service if no specify.*
