

Mechanical Setting Tool for DBP

Mechanical Setting Tools are used to mechanically set the Mechanical Set Bridge Plugs. It is designed to contain the upper slips of Bridge Plug in a safe retracted position while running to setting depth. The upper slips are released by right hand rotation and slacking off on the work string.

Features

- 1) Locked with Bridge Plug
- 2) The Upper slips are held in a safe retracted position while running
- 3) Special designed Bow Spring provide positive control and allows one size Mechanical Setting Tools to cover a large range of casing weight
- 4) Can quickly be configured to set Mechanical Set Cement Retainers
